KAMANDALU UBUD

Heritage of Serenity, Rejuvenated

Bali, June 2014 – Kamandalu Ubud, a pioneer of Balinese luxury resorts on the island, unveiled its new face to the public. The resort, a beautiful and romantic property in the style of a classic Balinese village, has updated and enhanced its facilities to cater to the demands of today's travellers, while preserving its heritage of timeless serenity.

Timeless Escape

"Kamandalu Ubud's enriched experience stays true to our heritage and original concept of tranquil escape, while offering a new level of comfort", said Deasy Swandarini, Kamandalu Ubud's Resident Manager. "In a world where people are constantly on the move, the need for rest and relaxation is more pressing than ever. Our recent upgrades have ensured that Kamandalu Ubud remains the perfect place to recharge. In our philosophy, Kamandalu Ubud is our village, our staff is our extended family and our guests are a sacred responsibility."

Logo Redesign

In Sanskrit, 'Kamandalu' refers to the vessel that contains the water of life. In line with the recent updates, the Kamandalu Ubud logo was redesigned in the shape of an earthenware vessel to more closely reflect its philosophy of life-enhancing rejuvenation.

Authentic & Intimate Setting

Surrounded by tranquil terraced rice paddies and overlooking a tropical valley in the hills of Ubud, the intimate surroundings and warm hospitality has earned Kamandalu Ubud its remarkable reputation. Beyond this serene compound, guests can explore the cultural and natural sights of Ubud, an area famed for its traditional arts, Balinese palaces and terraced rice paddies.

Enhanced Experience

Inspired by Panglipuran village, one of the oldest and most traditional settlements in Bali, the main facilities of this 3.5 hectare property were redesigned by Grahacipta Hadiprana, a renowned Indonesian architect and design firm, to enhance Kamandalu Ubud's original experience offering one, two and three bedroom villas patterned after an authentic Balinese village.
